

Our next winter talk will be Monday 6th April 2020 at 7:45pm on Emmeline Pankhurst.
All are welcome.

Exploring Manchester's Hidden Heritage by Martin Zero

Important Note: The 2nd Monday of April is Easter Monday so we have re-arranged this to be **1 week earlier** than usual.

Martin will share his personal experiences and adventures while exploring the rivers and canals etc. around Manchester. Lots of pictures (and some video clips).

Our Speaker:

Martin is well known for his explorations all over Old Manchester. He has a big following on YouTube with videos covering his visits to Manchester's forgotten or hidden heritage. This includes canals and rivers (above and below ground), buildings and railways. Martin rarely gives talks so this will be a really special evening.

For more info, see: https://www.waterways.org.uk/manchester/winter_talks_programme

(Unfortunately the April Open Meeting and talk has been cancelled. Instead, we hope to hear Martin Zero's talk in the autumn..

The next meeting (Coronavirus permitting) will be our AGM which will be held on September 7th 2020.

Please keep an eye on the branch web site for updates.)
